Operation and Maintenance**

I. Description of Operations Financed: The Department of Defense (DoD) has two interwoven medical missions: (a) to provide, and be ready to provide, medical services and support to the armed forces during military operations, and (b) to provide medical services and support to members of the armed forces, their dependents, and other beneficiaries entitled to DoD health care. The Defense Health Program (DHP) appropriation funding provides support for worldwide medical and dental services to the active forces and other eligible beneficiaries, veterinary services, medical command headquarters, specialized services for the training of medical personnel, and occupational and industrial health care. Included are the costs associated with the Civilian Health and Medical Program of the Uniform Services (CHAMPUS) which provides for the health care of eligible active duty dependents, retired members and their dependents, and the eligible surviving dependents of deceased active duty and retired members. The DHP provides funding for acquisition of capital expense equipment in support of military medical treatment facilities, training facilities, and programs.

The remaining portion of the DHP appropriation funds procurement of capital equipment in support of the DoD health care program in military medical treatment facilities and other health activities worldwide. It includes equipment for initial outfitting of new, expanded or altered health care facilities being constructed under major military construction programs; equipment for modernization and replacement of worn-out, obsolete, or economically repairable items; equipment in support of CHAMPUS and medical treatment facility information processing requirements; and equipment supporting programs such as pollution control, clinical investigation, and occupational/environmental health.

All of these activities are under the direction and control of the Assistant Secretary of Defense (Health Affairs) (ASD(HA)). The ASD(HA), as the DoD officer responsible for the effective execution of the Department's mission works through the Secretaries of the Military Departments to accomplish the Department's medical mission. The Assistant Secretary's responsibilities include developing a unified medical program and budget, and developing policies that will allow the Department to perform its medical mission effectively.

II. Force Structure Summary: The Department of Defense accomplishes its world wide mission by using the Defense Health Program (DHP) appropriation to support the eligible beneficiary population through a system of 124 hospitals and 504 clinics (FY 1996), and includes a workforce of 104,484 military and 45,209 civilian personnel. This represents a decrease from FY 1995 which consisted of a system of 127 hospitals and 504 clinics, and a workforce of 105,849 military and 47,686 civilian personnel. The number of hospitals remain constant at 124 in the budget years FY 1996 and 1997. The civilian personnel workforce reflects a reduction of 4 percent each year. Within the DHP, the reduction of civilian and military end strength will be offset by decreased requirements from overall downsizing, contractor managed care personnel, and purchasing care under TRICARE support contracts.

Operation and Maintenance**

III. Financial Summary (\$ in Thousands):

This submission includes Operation and Maintenance (O&M) and Procurement funds. The overall resource requirements for FY 1996 and 1997 were based on the DHP's capitation-based financing model in conjunction with input from the three Military Departments and the three DHP field activities. Capitation is one of the major components of the Department's managed care strategy. One of the unique aspects of the DHP's capitation model is that it considers all resources (i.e., both Operation and Maintenance funds and Military Personnel funds) used to produce the Department's health care services for eligible beneficiaries. A summary of the DHP's total per capita costs are as follows:

The total DHP cost per capita, O&M cost per capita, and military personnel cost per capita reflected in this budget, based on projected beneficiary man-years, are as follows:

	<u>FY 1994</u>	<u>FY 1995</u>	<u>FY 1996</u>	<u>FY 1997</u>	<u>FY 1994-95</u> Change	<u>FY 1995-96</u> Change	<u>FY 1996-97</u> Change
O & M	\$1,095	\$1,152	\$1,206	\$1,194	+\$57 (+4.1%)	+\$54 (+3.8%)	-\$12 (-1.0%)
MILPERS ^{1/}	\$ 592	\$619	\$619	\$628	+\$27 (+4.5%)	\$0 (0%)	+\$9 (+1.4%)
Total	\$1,687	\$1,771	\$1,822	\$1,822	+\$84 (+4.9%)	+\$54 (+3.1%)	-\$3 (-0.2%)

1/ Military personnel costs and end strength are included in the Military Departments and are not part of DHP appropriation.

The provision of health care in the DHP depends upon both O&M funds and military labor. A per capita decline in either resource component (i.e. O&M and MILPERS), if not offset by an increase in the other component, reduces the DHP's ability to provide a consistent level of health care services to eligible DOD beneficiaries.

The financial requirements set forth in this budget consider the effects of force structure downsizing, and Base Realignment and Closure plans. Other than major mission changes, there are three main factors that influence DHP funding requirements: (1) general inflation, (2) health services prices, or medical specific inflation, and (3) population composition and changes.

**Defense Health Program Appropriation
FY 1996/1997 Biennial Budget Estimates
Operation and Maintenance**

In this budget, the impact of the first two factors are reflected in the price growth estimates of \$369 million in FY 1996 and \$438 million in FY 1997. The impact of the third factor (i.e. population changes) is in the DHP's capitation model and is reflected as program decreases. The FY 1996-1997 Biennial Budget was prepared utilizing a completely new Program Element (PE) structure of 33 PEs which enables the DHP to present health care resource requirements more effectively and with greater visibility of key programs. The new PE structure improves and facilitates integration with the DHP's capitation model; however, the restructuring of PEs from FY 1994 to FY 1995 and the outyears does not facilitate detailed comparisons with prior year expenditures by PE.

c. Clinical Escalation, Research and Review Activities (CERRA) +13,600

CERRA combines all prior special efforts related to the illnesses associated with the deployment of military personnel. Although the program initially will be concerned with the Persian Gulf War deployment, it is intended to cover pre-deployment and post-deployment health care including follow up studies for all other deployments.

d. Health Professions Scholarship Program/Financial Assistance Program (HPSP/FAP) +280

Increase required for change in the mix of scholarships.

e. OCHAMPUS Handbook and Policy Manuals +1,077

Funds the printing and reproduction costs of the OCHAMPUS Handbook provided to beneficiaries and Policy Manuals reflecting the conversion from the standard CHAMPUS program to Managed Care.

f. Management Support Services Contracts +254

Funds the contract support services required for the development of bid price adjustment criteria and provider certifications associated with the Managed Care Support Contracts.

h. Increase in MCS costs to assume OCHAMPUS responsibilities

i. One time costs - MCS Implementation

+411,000

Increase required for contract start-up, transition/phaseout and the buyout of the pipeline of standard CHAMPUS claims as the MCS contracts are implemented.

j. Benefit costs - MCS Contracts

+49,154

Increase required for costs associated with on-going and new Managed Care Support contracts in FY 1996. This increase to the MCS program is offset by a decrease to the requirement for standard CHAMPUS.

k. Minor Construction/Maintenance and Repair

+7,731

Increase required for additional projects to meet fire, life/safety, and accreditation requirements and to support a plant replacement value of 2.5 percent for medical facilities; 2.0 percent for troop housing and dining facilities; 1.5 percent for training and other personnel support facilities and 1.0 percent for remaining facility inventory.

A September 1994 evaluation indicated that this demonstration was not cost-effective. Project participants showed no greater improvement to their mental health while the cost per client was 150 percent more expensive than standard CHAMPUS mental health. Consequently, the FY 1996/FY 1997 President's Budget reflects the decision to eliminate the project, beginning in FY 1996.

c. Reduction in Military Health Services System (MHSS) users

-93,393

MHSS users are projected to decrease by 2.7 percent, resulting in decreased Defense Health Program requirements in approximately the same proportion.

Reconciliation of Increases and Decreases (Cont'd)

(Dollars in Thousands)

Decrease reflects reduced requirements associated with 3.5 percent decrease in the active duty population due to the force structure drawdown. Included in this total is a decrease in Air Force Aeromedical Evaluation Contractor Logistics Support totaling \$2.04 million.

- e. Specialized Skill Training -5,105
- Decrease in specialized skill training resulting from the 6 percent reduction in certified military health care professional end strengths in FY 1996.

- f. Emergency Medical Care for Active Duty Members -16,793

Reduction reflects a decline in the active duty population eligible for emergency medical care.

- g. Managed Care Support (MCS) Implementation -8,070
- Savings in the OCHAMPUS program as a result of the Managed Care Support Contracts assuming responsibility for certain oversight contracts. Reduction also reflects reduced costs for National Claims Processing and Fiscal Intermediary Change Orders as a result of MCS implementation.

- h. Non-GSA Rents -204
- One time cost reduction associated with changing from commercially leased, custom designed software to government owned software.
- i. OCHAMPUS Equipment Maintenance -416

Reduced equipment maintenance costs resulting from "on-call" maintenance contracts versus extended warranty and, one time supply and transportation costs.

k. One-time FY 1995 costs for MCS Contracts

Reduction for the one-time costs for three Managed Care Support contracts and pipeline costs for one MCS contract in FY 1995.

l. USUHS Closure -4,494

Decrease in travel, transportation, utilities, printing, other services, supplies and equipment due to phased closure of USUHS.

m. Base Realignment and Closure -5,423

Reflects reduced requirements as a result of closure of Vincenza Army Field Hospital, Orlando and Oakland Naval Hospitals, and March Air Force Hospital.

n. Base Realignment and Closure -15,997

Estimated savings from the closure of the Army facility at Fort Ord, the Navy facilities at Orlando and Oakland, and Air Force facilities at Castle, Griffis, Plattsburgh, and K.I. Sawyer.

- b. OCHAMPUS - rental of software related to MCS contracts +97
- c. Transfer of Oversight Contracts from OCHAMPUS +14,645

Increased requirements in CHAMPUS program related to decreased responsibility for funding oversight contracts in OCHAMPUS.

- d. One time requirement for pipeline buyout +448,000

One time FY 1997 requirement for the buyout of standard CHAMPUS claims related to the implementation of three regional MCS contracts.

- e. MCS Contracts--Benefit Costs +1,105,827

Increase required for the benefit costs associated with on-going and new Managed Care Support contracts in FY 1997. This increase is offset by a decrease to the standard CHAMPUS benefits program.

- f. Maintenance and Repair +3,779

Increase in Maintenance and Repair due to increases in the Plant Replacement Value of Defense Health facilities.

- g. Base Communications +522

13. Program Decreases (FY 1997)

- a. Reduction in Military Health Services System (MHSS) users**
-2,155,023
-383,404

**Defense Health Program Appropriation

Operation and Maintenance**

Reconciliation of Increases and Decreases (Cont'd)

(Dollars in Thousands)

MHSS users are projected to decrease by 1.1 percent, resulting in decreased Defense Health Program requirements in approximately the same proportion.

b. Uniform Benefit Savings

Savings reflect projected savings to the Defense Health Program from implementation of Uniform HMO Benefit.

c. Patient Care Support

Decrease reflects reduced requirements associated with 3.5 percent decrease in the active duty population due to the force structure drawdown. Included in this total is a decrease in Air Force Aeromedical Evaluation Contractor Logistics Support totaling \$2.04 million.

d. Composite Health Care System (CHCS)

Decrease related to the reduced level of effort following the accelerated deployment of (CHCS) in FY 1996.

e. Specialized Skill Training

Decrease in specialized skill training resulting from the 6 percent reduction in certified military health care professional end strengths in FY 1997.

f. Emergency Medical Care for Active Duty Members

Reduction reflects a decline in the active duty population eligible for emergency medical care.

g. Managed Care Support Implementation

Detail By Sub-Activity Group: Direct Patient Care

I. Description of Operations Financed: This Sub-Activity Group provides for the delivery of patient care worldwide. This includes two broad functional areas: (1) Care in Defense Medical Centers, Station Hospitals and Medical Clinics, and (2) Dental Care Activities, in the Continental United States (CONUS) and Outside the Continental United States (OCONUS) respectively.

II. Force Structure Summary: **Defense Medical Centers / Hospitals / Clinics** represent the costs of providing medical care in DOD-owned and operated medical centers, station hospitals, medical clinics, subordinate aid stations, and PRIMUS/NAVCARE clinics which are staffed and equipped to provide the full range of inpatient and ambulatory health care services. Includes medical center laboratories, alcohol treatment, clinical investigation activities and on-the-job training/education programs conducted at these facilities, federal sharing agreements, supplemental and cooperative care costs specifically identified to health care services received in a **non-defense** facility as a result of a referral or prearranged agreement. Excludes operation of management headquarters for TRICARE Lead Agents, dental activities, deployable medical units and other health care resources devoted exclusively to teaching. **Dental Care Activities** represent the costs of providing dental services through operation of hospital departments of dentistry, installation dental clinics, and Regional Dental Activities (laboratories). Excludes provision of dental services by units organic to Operating Forces units and deployable dental units operating in an active combat zone.

III. Financial Summary (O&M--\$ in thousands--Continued):

b. Phased discontinuation of the Fort Bragg Mental Health Demonstration. -\$9,400

The decision to discontinue the Fort Bragg Mental Health Demonstration was based on a September 1994 evaluation of the project's effectiveness. The evaluation found that while the demonstration improved access to mental health services, demonstration participants showed no greater improvement to their mental health than participants at the comparison site. Further, the cost per client was over 150 percent more expensive than at the comparison site.

c. Medical Centers / Hospitals / Clinics (CONUS) -\$85,664

This program decrease reflects the reduced level of effort associated in part with a 1.5 percent decrease in eligible MHSS beneficiaries within CONUS.

d. BRAC Decrement -\$15,997

The Base Realignment and Closure (BRAC) decrease stems from estimated savings related to the closure of medical facilities during the FY95 to FY96 period. Savings stem from the closure of the Army facility at Fort Ord, the Navy facilities at Orlando and Oakland, and Air Force facilities at Castle, Griffis, Pittsburgh, and K.I. Sawyer.

e. Medical Centers / Hospitals / Clinics (OCONUS) -\$7,224

The program decrease for OCONUS Medical Centers and Hospitals (-3.1 percent from FY95 to FY96) is somewhat less than the population decrease (-4.3 percent for the same period) due to temporary impact of phasing out fixed cost requirements. Geographic dispersion and readiness requirements also account for the difference in the FY96 requirement.

Further, the cost per client was over 150 percent more expensive than at the comparison site.

III. Financial Summary (O&M--\$ in thousands--Continued):

The CONUS Direct Care Program decreases by 12.8 percent while the projected beneficiary population declines by less than one percent during the same time period. The Department is committed to maintaining the health care benefit for eligible beneficiaries, through significant economies and efficiencies combined with aggressive management actions to further improve the cost effectiveness of the direct care system.

- c. BRAC Decrement
-376,720
-\$14,432

The Base Realignment and Closure (BRAC) decrease stems from estimated savings related to the closure of the Navy medical facility at Oakland and the Air Force facility at March Air Force Base during the FY96 to FY97 period.

- d. Medical Centers/Hospitals/Clinics (OCONUS)
-\$6,684
- e. Dental CONUS
-\$2,533

The temporary funding for fixed costs referred to in FY96 is not necessary in FY97, and thus the funding decrement (-2.9 percent) exceeds the rate of population decrease (-1.4 percent) during FY97.

The CONUS Dental Program Element decrease reflects the change in eligible population (e.g., from FY96 to FY97 the population declines by -1.8 percent) and the level of dental work required for active duty personnel who now represent a larger portion of total CONUS dental workload.

IV. Performance Criteria and Evaluation Summary: Direct Patient Care (continued)

The workload data displayed on the previous page reflects traditional performance criteria used for the direct care system of medical treatment facilities. A more comprehensive performance measure for the Defense Health Program (DHP) is the cost of health care services per eligible beneficiary man-year, integrating multiple workload factors and the cost of all resources into a single measure.

The total DHP cost per capita, O&M cost per capita, and military personnel cost per capita reflected in this budget, based on projected beneficiary man-years, are as follows:

	<u>FY 1994</u>	<u>FY 1995</u>	<u>FY 1996</u>	<u>FY 1997</u>	<u>FY 1994-95</u> Change	<u>FY 1995-96</u> Change	<u>FY 1996-97</u> Change
O & M	\$1,095	\$1,152	\$1,206	\$1,194	+\$57 (+5.2%)	+\$54 (+4.7%)	-\$12 (-1.0%)
MILPERS ^{1/}	\$ 592	\$619	\$628	\$27 (+4.5%)	\$0 (0%)	+\$9 (+1.4%)	
Total	\$1,687	\$1,771	\$1,825	\$1,822	+\$84 (+4.9%)	+\$54 (+3.1%)	-\$3 (-0.2%)

1/ Military personnel costs and end strength are included in the budget submissions of the three Military Departments and are not part of DHP appropriation.

The DHP's ability to provide high quality, cost effective health care services to eligible beneficiaries requires the availability of two major resource components: O&M funds and military personnel labor. Per capita declines in either resource component must be offset with an increase in the other component to ensure a consistent level of health care services to eligible DoD beneficiaries. The DHP budget only addresses O&M funds and military personnel labor is included the budgets of the three Military Departments. However, the DHP capitation financing model includes both O&M funds and military personnel labor because that is the most rational way to evaluate the ability of the DHP to meet its mission requirements. DHP per capita funding changes in FY 1996 and FY 1997 are less than normal inflation and will require increased economies and efficiencies combined with aggressive management actions to maintain a consistent level of high quality, cost effective health care services to eligible DoD beneficiaries.

D. Reconciliation of Increase and Decreases (Continued):

b. Clinical Evaluation, Research and Review Activities (CERRA)

+\$13,600

CERRA combines all prior special efforts related to the illnesses associated with the deployment of military personnel including clinical evaluations, treatments, clinical investigations, medical research and development requirements, and review activities. Although the program initially will be concerned with the Persian Gulf War deployment, it is intended to cover pre-deployment and post-deployment health care including follow-up studies for all other deployments.

Total Program Increases

+\$14,735

9. Program Decreases

a. Management Headquarters, Military Public and Occupational Health, Veterinary Services, Examining, Military Unique--Other, Aeromedical Evacuation, AFIP and Other Patient Care Support.
-\$30,823

Decrease reflects the reduced level of effort associated with decreases (-3.5 percent) in the active duty population supported due to force structure downsizing. Included in the total decrease is an Air Force Aeromedical Evacuation Contractor Logistics Support decrease totaling \$2.04 Million.

b. Reduction of Congressional Increase for Brown Tree Snake.

Total Program Decreases

Detail By Sub-Activity Group: Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) Program

- I. Description of Operations Financed:** The Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) is a worldwide health care cost-sharing program covering approximately 5.3 million eligible beneficiaries. The office of CHAMPUS, located in Aurora, Colorado, is responsible for the overall management and supervision of this program. In 1993, the Department began the transition to the Managed Care concept of integrating the CHAMPUS standard benefits program with the military medical treatment facilities on a regional basis as part of its Managed Care initiative, TRICARE. The majority of the standard CHAMPUS program requirements in this subactivity group will gradually be absorbed into the Managed Care Support Contracts subactivity group as the regional contracts are implemented. This subactivity group includes the benefits required for those beneficiaries not covered by the Managed Care Support Contracts subactivity group. It also includes the Continuing Health Education/ Capitalization of Assets programs, the Delta Dental program, and the Fiscal Intermediary claims processing costs. In addition, management responsibility and funding for some of the OCHAMPUS oversight contracts are included in this subactivity group until they become part of the regional Managed Care Support contracts. The contracts designated for transfer are the Home Health Care-Case Management program, the Mental Health Utilization Management/Quality Assurance program, and the Medical/Surgical Regional Review program.
- II. Force Structure Summary:** The CHAMPUS program provides for the worldwide health care of eligible active duty dependents, retired members and their dependents, and surviving dependents of deceased active duty from civilian health care facilities. CHAMPUS also includes care received by beneficiaries of the Veterans Administration, the Department of Health and Human Services, U.S. Coast Guard, and the National Oceanographic and Atmospheric Administration on a reimbursable basis. This subactivity group funds the costs of the standard CHAMPUS benefits program requirements and claims processing costs. This program's funding profile will decline as the Managed Care Support contracts are implemented and funds are realigned from this subactivity to the Health Care Support Contracts subactivity.

Detail By Sub-Activity Group: Health Care Support Contracts (Managed Care Support Contracts)

- I. Description of Operations Financed:** In 1993, the Department began a transition to the Managed Care concept of operation by adding several new components to its health care program. This managed care program, designated TRICARE, integrates the Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) with the military medical treatment facilities on a regional basis. TRICARE realigns the Military Health Services System into 12 DoD health care regions under the guidance of a designated military medical center -- Lead Agent. The Lead Agent's role and responsibilities include coordinating the development and implementation of a regional, joint-service health plan and administering the Managed Care Support (MCS) contract for the entire region. The Managed Care Support initiative, a significant component of the TRICARE program, will transition the purchase of health care and support services from civilian sources under the basic CHAMPUS program (fee-for-service) to a fixed-price at-risk contract. Seven MCS contracts (for the 12 regions) will be procured centrally by the Office of CHAMPUS and all are currently scheduled for award by October 1996. Implementation of these health care contracts will improve access to care, ensure that DoD beneficiaries obtain the highest quality of care, enhance the military hospitals' current capability through carefully-controlled contractor support, and contain health care costs.
- II. Force Structure Summary:** This program funds the costs of the seven MCS contracts that will be negotiated and procured by the Office of CHAMPUS. Currently, one contract has been awarded in FY94, three are scheduled for award in FY95 and three in FY96. The starting dates for delivery of care begin in FY95 for one contract, and extend through FY97 for the remaining six contracts. This program will provide for health care to eligible active duty dependents, retired members and their dependents, and surviving dependents of deceased active duty purchased within the 12 Health Service Regions (HSRs) under the uniform TRICARE triple option benefit plan. Under the uniform triple-option plan, eligible beneficiaries can enroll in a health maintenance organization (HMO) type plan -- TRICARE Prime, they can use the civilian preferred provider network on a case-by-case basis -- TRICARE Extra, or they can remain in the standard CHAMPUS benefit plan -- TRICARE Standard.

FY 1996/1997 Biennial Budget Estimates
Operation and Maintenance

Detail By Sub-Activity Group: Office of Civilian Health and Medical Program of the Uniformed Services (OCHAMPUS)

- I. Description of Operations Financed:** The Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) is a worldwide health care cost-sharing program covering approximately 5.3 million eligible beneficiaries. The office of CHAMPUS, located in Aurora, Colorado, is responsible for the overall management and supervision of this program. This sub-activity group funds the day-to-day operations and program administration costs of this office and the cost of the oversight contracts it manages for the CHAMPUS program. The oversight responsibility for some of these contracts will transfer from OCHAMPUS to the Managed Care Support regional contracts in FY 1996 and will be phased in gradually as these contracts are awarded. Among those contracts designated for transfer are the Home Health Care-Case Management program, the Mental Health Utilization Management/Quality Assurance program, and the Medical/Surgical Regional Review program. These contracts are designed to reduce the growth rate of the CHAMPUS program, improve the efficiency of this health care, and provide the best possible service to the eligible beneficiaries.
- II. Force Structure Summary:** This program provides for the operating costs of OCHAMPUS, which is responsible for the overall management of the CHAMPUS program. The CHAMPUS program provides for the worldwide health care of eligible active duty dependents, retired members and their dependents, and surviving dependents of deceased active duty from civilian health care facilities. The CHAMPUS program also includes care received by beneficiaries of the Veterans Administration, the Department of Health and Human Services, U.S. Coast Guard, and the National Oceanographic and Atmospheric Administration on a reimbursable basis. OCHAMPUS operating costs include civilian personnel, travel, rents and utilities, printing and reproduction, communications, supplies and equipment, and various contracts (such as the National Claims Processing System and Home Health Care-Case Management).

Detail By Sub-Activity Group: Care in Non-Defense Facilities

I. Description of Operations Financed: This Sub-activity Group provides for the purchase of health care services from the Uniformed Services Treatment Facilities (USTFs) for eligible Uniformed Services Beneficiaries who are **enrolled** in the USTF Managed Care Plan. It also supports centrally managed allotments which fund emergency medical care and transportation for authorized beneficiaries and medically necessary non-emergency care for active duty personnel when care is not accessible or available from defense facilities. This Sub-activity Group **does not include** cost of care rendered through the Civilian Health and Medical Program of the Uniformed Services (CHAMPUS), PRIMUS/NAV CARE clinics, Federal sharing agreements, and referrals for specialty care by military treatment facilities covered under supplemental care/cooperative care.

II. Force Structure Summary: Care in Non-Defense Facilities represents the costs of purchasing health care services for enrolled beneficiaries in the 10 civilian-operated Uniformed Services Treatment Facilities (USTFs). It also supports centrally managed allotments which fund emergency medical care and transportation for authorized beneficiaries and medically necessary non-emergency care for active duty personnel when care is not accessible or available from defense facilities.

Detail By Sub-Activity Group: Education and Training

I. Description of Operations Financed: This Sub-activity Group provides support for worldwide medical education and training for active duty personnel, civilian medical personnel and students. This program includes the Health Professions Scholarship Program (HPSP), Financial Assistance Program (FAP) residencies, precommissioning professional scholarship programs, initial skills training, and specialized skills training. Funding levels in the FY 1996/1997 budget submission for HPSP do not reflect an increase in scholarships to offset the closure of USUHS.

II. Force Structure Summary: Education and training resources provide tuition and other educational expenses for HPSP participants and training of active duty and civilian medical personnel. The training loads in the education and training program have been reduced to reflect DoD declining medical force levels.

Detail By Sub-Activity Group: Uniformed Services University of the Health Sciences (USUHS)

- I. **Narrative Description:** This Sub-activity Group provides for the education of military physicians and graduate education programs leading to masters or doctoral degrees in the biological sciences. The mission is to provide high quality, career dedicated military and Public Health Service physicians. The Vice President's National Performance Review recommended that USUHS be closed and that future physician accessions be obtained from less expensive sources. This budget includes an orderly phased closure of USUHS starting in FY 1996 with complete closure by FY 1999.
- II. **Description of Operations Financed:** The Uniformed Services University of the Health Sciences provides for undergraduate medical teaching operations, as well as a limited basic sciences program which is necessary to meet needed teaching requirements and provide graduate education to qualified military personnel assigned to the University for masters and doctoral programs in the biological sciences.

FY 1996/1997 Biennial Budget Estimates
Operation and Maintenance**

Sub-activity Group: Base Operations Support

- I. Description of Operations Financed:** Base Operations (BASOPS) refers to the resources dedicated to the operation and maintenance of Defense Health Program (DHP) facilities. The DHP's BASOPS provides for facilities and services at military medical activities supporting active duty combat forces, reserve and guard components, training, military dependents, eligible retirees, and family members. The program consists of seven components:

Environmental Compliance - costs required to comply with environmental laws, regulations, criteria, and standards. This applies to manpower, training, travel, and supplies.

Minor Construction - all construction costs less than the statutory maximum amount for minor military construction projects as established by section 2805 of Title 10 U.S.C. in support of medical centers and other installations with a primary mission of health care.

Maintenance and Repair - costs required to execute maintenance and repair of utilities, buildings, other facilities, pavements, land, and grounds. This includes, but is not limited to, such things as repair of electrical circuitry, heating and air conditioning, water piping, and routine maintenance work such as caulking, painting, etc. in medical centers and other installations with a primary mission of health care.

Visual Information Systems - costs required to provide manpower, travel, contractual service, procurement of supplies and materials, expense equipment, necessary facilities and the associated costs specifically identifiable to visual information productions, services, and support.

Base Communications - costs required to provide base communication resources to DHP medical activities. This includes non-tactical, non-DCS base communications facilities and equipment systems that provide local communications worldwide to installations and activities.

Base Operation Support - costs required to provide comptroller services, ADP services, information activities, legal activities, civilian personnel administration, military personnel administration, printing and reproduction, installation safety, management analysis/engineering services, retail supply operations, supply activities, procurement operations, storage activities, transportation activities, physical security and police activities, laundry and dry cleaning, food services, and moral, welfare and recreation activities.

Operation and Maintenance**

Real Property Services - Two new program elements were established in FY 1995 for CONUS and OCONUS costs. In previous periods, the costs were included within Base Operation Support program elements. As now defined, costs include purchased utilities, air conditioning and refrigeration, utility fuels, fire protection, crash rescue, snow and ice removal, entomological services, elevator maintenance/inspections, custodial services, refuse collection and disposal, sewer and waste systems, rental of real property, facility engineering and public works management, other installation engineering services and other annual service requirements performed in-house or by contract.

Required for additional facility projects to meet fire, life safety, and accreditation requirements and to extend the life cycle of existing medical facilities.

b. Maintenance & Repair

+89,677

Required to support the increased operating costs of ownership of additional plant value resulting from occupancy of new or expanded facilities and the repair, upgrade, and maintenance of our existing infrastructure to required modern standards in order to offset reductions in the medical military construction program. DHP minimum essential maintenance and repair revitalization goals have been developed and expressed as a percent of Plant Replacement Value (PRV). In this budget, the minimum essential PRV revitalization goals for maintenance and repair are: 2.5 percent for hospital/medical facilities; 2.0 percent for troop housing and dining facilities; 1.5 percent for training, utility and other personnel support facilities; and 1.0 percent for our remaining facility inventory.

c. Base Communications

Required to align costs with prior year execution resulting from increased purchased communications costs.

d. Base Operations/Real Property Services

Required for additional planning and development of minor construction and maintenance and repair projects and increased purchased utility costs.
